The Estate

It is in a 16th-century farmhouse, situated between the municipalities of Montemagno, Viarigi, Casorzo and Altavilla, that we have brought a dream to life: to rediscover a region that preserves ancient traditions, to restore splendour to walls that bear witness to our history, and to produce wines that are an expression of the terroir yet, through a personal interpretation, leave a mark of innovation thanks to the contribution of highly experienced and skilled technicians and oenologists.

Today, **Tenuta Montemagno's** wines reveal the diverse character of a complex and fascinating region – the hills on which it stands, a '**land highly suited to viticulture**', as described in ancient Napoleonic maps.

The Wines and the Cellar

Thanks to the south-west-facing vineyards, the unique microclimate enjoyed by this area with its clayey and calcareous soil, the entirely manual winemaking process, the brilliant insights of the **Barea** family and the expert guidance of oenologist **Gianfranco Cordero**, **Tenuta Montemagno** now produces wines of great significance, ranked amongst the **top 100 best wines in Italy**.

In keeping with tradition, the grape harvest, winemaking and ageing take place in the ancient frescoed cellars of **Tenuta Montemagno**, equipped with state-of-the-art technology. Here, traditional wines with a strong character and decidedly new wines, such as the **TM Brut** – a Metodo Classico produced from **Barbera** grapes – come to life and mature.

Packages Magnum and Jeroboam

Large-format bottles ensure that the characteristics and quality of the wine – whether red, white or sparkling – are preserved and enhanced in the bottle.

In a **Magnum** (1.5 litres) or a **Jeroboam** (3 litres), the wine, if stored correctly, rests and develops in the best possible way: a more stable development, greater resistance to light and temperature fluctuations, and ideal ageing.

Serving a large-format bottle at the table is synonymous with celebrating exceptional moments and festive occasions, or, quite simply, sharing a great wine with friends and fellow diners.

All the wines in the 'Selection' range, as well as our TM Brut sparkling wines, are also available in Magnum or Jeroboam sizes.

Packages Sparkling Wines

The Classic Method meets the historic grape varieties of Monferrato, giving rise to **Tenuta Montemagno's** sparkling wines – unique expressions of the oenological richness that few regions in Italy can boast.

TM Brut, made from Barbera grapes that rest on the lees for 24, 36 or 40 months. The two versions with the longest ageing period are the ideal accompaniment to Piedmontese cuisine, whilst the younger version is perfect for aperitifs.

The acidity of the original grape variety prepares the palate for subsequent tastings and ensures an easy-drinking wine, a long finish and the heady effect created by the crisp perlage.

TM Roses, made from the native Malvasia di Casorzo grape variety, in a sparkling version. Its delicate rosé colour and aromas reminiscent of the precious rose flower make it the dessert sparkling wine par excellence.

Grappas Line

Tenuta Montemagno's grappas and spirits are crafted to allow you to be enveloped by the heady spirits of Monferrato. The pomace from our finest grapes is distilled to create a selection of grappas capable of satisfying the tastes of the most refined palates and female consumers.

This range can be summed up by two extremes: the tobacco-infused grappa in its two traditional versions – “**Tabacum XLV**”, which is aged for 36 months in oak casks and refined for 12 days with Kentucky tobacco leaves grown in Sicily; the prestigious “**Tabacum**”, a reserve variant made from Barbera Mysterium pomace, aged for 48 months and refined in cherry, chestnut and Allier oak barrels.

At the opposite end of the spectrum is **Rosatium XLV**, a liqueur based on Ruché grappa and refined by infusing it with rose petals for 12 days.

In between are the more classic **Argentum XLV**, made from red Malvasia pomace, and **Auratum XLV**, made from Barbera pomace and aged in oak barriques for 12 months.
